

## TERMS OF REFERENCE

### Agriculture Engineer – Ard Jeddeh Project

The Food Heritage Foundation (FHF) is a non-profit organization that strongly believes in local food heritage being a potent tool for economic development. The FHF aims to revive traditional cuisine and local produce and promotes the livelihoods of rural producers and processors through rural-urban linkages. FHF has been implementing capacity building projects throughout Lebanon promoting the local food system, supporting the livelihoods of small-scale farmers/producers, and fostering sustainability.

### Scope of Work

The Food Heritage Foundation is seeking to recruit a part-time agriculture engineer, having extensive technical experience in farming and agricultural practices, focusing on berry plantations. He/She will provide technical assistance and guidance to Ard Jeddeh Manager and follow up on the needed activities in Ard Jedde - Hammana, ensuring the achievement of successful deliverables.

### Qualifications

- Previous agriculture experience (field work - at least 1-2 years)
- Agriculture degree or similar
- Passionate and interested in experimenting with new breeds
- Data driven, meticulous and organized
- Participate in procurement of agricultural equipment and tools
- Relocate or face a longer commute as and when required
- Preferably to be located in the surrounding area of Hammana

### Period

- 8 months from January 1, 2023 to August 31, 2023

### How to Apply

- Interested candidates should send their CVs to: [info@food-heritage.org](mailto:info@food-heritage.org) while adding "Agriculture Engineer", as a subject with a cover note.
